WELCOME TO MANHATTAN 34

Join us on a journey across America, starting in the green mountains of Vermont and ending on the tropical island of Hawaii. We have taken the flavours and inspiration from 12 states across the country to create a menu designed to show off what we think makes these states so great.

So park your cheeks, get comfortable and let us take care of that thirsty soul and take your taste buds along the most inconvenient road trip across the good ol' U.S of A!
